

WEBINAR SERIES

Exploring Bioenergy Projects A Look at Active Bioenergy Projects Developed Outside of Virginia: Lessons, Examples & Opportunities

WEDNESDAY, OCTOBER 21st 1:00-2:00 PM

**THIS SESSION WILL LOOK AT:
Gasification of Poultry Litter at Frye Farms in Wardensville, WV**

What?

Please join us if you are interested in learning more about different bioenergy projects developed in other regions. Through a series of one hour online sessions, participants will hear of the lessons learned, successes, and failures of different projects as we explore opportunities for viable project development in Virginia.

Who Should Attend?

Anyone interested in learning more about bio-energy projects, the experiences from other regions, and in considering the potential opportunities and implications for here in Virginia.

Where?

This meeting will be conducted as a webinar via the Internet and phone line. For registration and participation details please visit:

<https://survey.vt.edu/survey/entry.jsp?id=1255721530341>

SPACE IS LIMITED PLEASE REGISTER!!

Participants will require access to Hi-Speed Internet and a phone line to participate in this meeting. Please contact John Ignosh at 540-432-6029 or via email at: jignosh@vt.edu with any questions.

Do You Know of Bioenergy Projects Outside of Our Region that Could Inform Bioenergy Project Development in Virginia?

Please pass along your ideas to: jignosh@vt.edu for consideration in future webinars.

NOTE:
Technologies or companies mentioned during these webinars **DO NOT** represent an endorsement, and are provided to illustrate the range of bioenergy project development in other regions and is used for informational purposes only.

PLEASE NOTE:

Participants may choose to remain anonymous during the web meeting session if they prefer.

The session will be recorded and posted online, for those that may be interested but cannot participate.

Please feel free to share this invitation with other individuals or institutions that may be interested.
